PROCEDURES

1.0 GENERAL

1.1 Consistent with the Broader Public Sector Procurement Directive, this administrative procedure is based on the five key principals that allow organizations to achieve value for money while following a procurement process that is fair and transparent to all vendors:

- i) **Accountability**
Organizations must be accountable for the results of their procurement decisions and the appropriateness of the processes.
- ii) **Transparency**
Organizations must be transparent to all vendors. Wherever possible, vendors must have equal access to information on procurement opportunities, processes, and results.
- iii) **Value for Money**
Organizations must maximize the value they receive from the use of public funds. A value-for-money approach aims to deliver goods and services at the optimum total lifecycle cost.
- iv) **Quality Service Delivery**
Front-line services provided by organizations, such as teaching and patient care, must receive the right product, at the right time, in the right place.
- v) **Process Standardization**
Standardization processes remove inefficiencies and create and level playing field.

1.2 When determining the value of procurement for approval purposes as outlined in this administrative procedure, the NCDSB will not take into consideration applicable sales taxes.

1.3 The NCDSB does not allow the purchase of personal goods through the organization's purchasing system or under the provisions of this administrative procedure. Employees are not allowed to use the NCDSB's name to secure personal goods or services for personal use.

1.4 Emergency purchases shall only be used for the purchase of emergency supplies or services by a Supervisory Officer or designate where the immediate purchase is essential to prevent danger to life, damage to property or disruption of work. Purchase orders are permitted to be issued after the purchase or service has been provided.

2.0 ONTARIO BROADER PUBLIC SECTOR SUPPLY CHAIN MANAGEMENT CODE OF ETHICS

All Board employees involved in any aspect of purchasing or other supply chain related activities must comply with the following purchasing code of ethics:

- i) **Personal Integrity and Professionalism**
All individuals involved with purchasing or other supply chain-related activities must act, and be seen to act, with integrity and professionalism. Honesty, care and due diligence must be integral to all supply chain activities with and between NCDSB, suppliers and other stakeholder. Respect must be demonstrated for each other and for the environment. Confidential information must be safeguarded. All participants must not engage in any activity that may create, or appear to create, a conflict of interest such as accepting gifts or favours, providing preferential treatment, or publicly endorsing suppliers or products.
- ii) **Accountability and Transparency**
Supply chain activities must be open and accountable. In particular, contracting and purchasing activities must be fair, transparent and conducted with a view to obtaining the best value for public money. All participants must ensure that public sector resources are used in a responsible, efficient and effective manner.
- iii) **Compliance and Continuous Improvement**
All individuals involved in purchasing or other supply chain-related activities must comply with this Code of Ethics and the laws of Canada and Ontario. All individuals should continuously work to improve supply chain policies and procedure, to improve their supply chain knowledge and skill levels, and to share leading practices.

3.0 SEGREGATION OF DUTIES

- 3.1 The NCDSB will ensure segregation of duties to prevent any one person from controlling the entire procurement process by separating approvals for the key stages of the procurement process.
- 3.2 Employees cannot independently acquire goods or services without approval.
- 3.3 The NCDSB will separate at least three of the five functional roles (requisition, budgeting, commitment, receipt, and payment).

4.0 APPROVAL AUTHORITY

- 5.1 All NCDSB purchases shall be authorized and approved according to the levels of approval as set out in this administrative procedure.

5.0 NON-COMPETITIVE PROCUREMENT

- 5.1 Non-competitive procurements, regardless of value, should be avoided to the greatest extent possible.
- 5.2 If the competitive process needs to be bypassed, a *Non-Competitive Procurement Request* must be completed to support and justify the decision.

- 5.3 Prior to commencement of non-competitive procurement, supporting documentation must be approved by an appropriate authority as defined in this administrative procedure.
- 5.4 For procurements \$100,000 or more, non-competitive procurements may be utilized only in situations outlined in the exemption, exception, or non-application clauses of the Agreement on Internal Trade (AIT) or other trade agreement.
