DEFINITIONS

Special Equipment Amount (SEA)

Funding provided to school boards to assist with the costs of equipment essential to support students with special education needs, where the need for specific equipment is recommended by a qualified professional. This equipment is to provide students with accommodations that are directly required and essential for one or more of the following: attending school, accessing the Ontario Curriculum, accessing a board determined alternative program and/or course.

SEA Claims-Based Funding

School boards are responsible for the first \$800 in costs for any student claim per year for non-computer based equipment to be utilized by students with special education needs. This includes sensory equipment, hearing support equipment, vision support equipment, personal care support equipment and physical assists support equipment.

SEA Per-Pupil Amount (PPA) Funding

Funding allocated for the purchase by school boards of all computers, software, robotics, computing-related devices, including routers and required supporting furniture identified for use by students with special education needs. In addition, this funding can support school boards for the training of

students and staff, equipment set-up, maintenance and repair as determined by the board for all SEA equipment, including SEA equipment funded through the claims-based process. This funding can also support the hiring of technicians and/or trainer by school boards, provided the new full-time equivalent positions are not created.
