- 1.5 In the event that two or more schools are participating in the same excursion (i.e. year-end excursions), each school must submit their own package for approval.
- 1.6 Excursions can occur throughout the school year. The Principal and supervisors will consider factors such as timing, frequency of excursions per student/staff member; the age and maturity of students related to the excursion length; availability of site; and financial costs to students and families.
- 1.7 The Principal will be provided with all relevant details of the excursion including but not limited to participant lists, emergency lists, itineraries, contact information, planned stops along the route, places of accommodation, and site to be visited. In the instance that the group is travelling by air, flight information including carrier, flight numbers, departure/arrival times/locations will be included. Relevant information must be clearly communicated to parents before the excursion takes place.
