The Northeastern Catholic District School Board (NCDSB) is committed to providing its students, staff, and Trustees with access to computer networks and the internet to enhance and broaden opportunities to learn, teach, and lead. The NCDSB believes that technology can contribute to effective instruction and learning if used appropriately. The NCDSB recognizes the impact of information technology on society and is committed to helping all learners develop the skills and understanding needed to use technology ethically to promote values consistent with Catholic teachings and the Catholic Graduate Expectations.
